### TERMS

All bills are subject to 2 per cent discount within 10 days from invoice date. Sixty days net. Sight draft, plus interest, thereafter.

Shipments are forwarded by best carrier, in our judgment, at time of delivery, unless otherwise specified by customer.

First-class stock is carefully packed when shipment is made, and we hold good order receipt from the transportation company. Our responsibility ceases thereafter. If the stock reaches you in bad condition, notify agent and bring claim against the delivery company for damage by their negligence, as no allowance for this cause can or will be made by us.

All items in this list are offered subject to crop deliveries or failures, and being unsold on receipt of order, and other conditions beyond our control, and ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

Bulbs, whether shipped on arrival or placed in cold storage for later delivery, may be examined at time of arrival if de-

We are pleased again to present our fall bulb catalog as complete but compact as we have been able to make it.

As before, we are including seasonable seeds those which should be ordered earlier before the regular spring catalog is available.

We do not know at this time of any shortages except Iris which will, we believe, be considerably so, both domestic and imported. In any event, it is advantageous to place orders promptly, thus more completely assuring delivery if any item is short and receiving the benefit of the lowest price which may be made.

May we again suggest the advisability of permitting us to substitute, if necessary, on a variety in Tulips, Hyacinths, Daffodils, with others of similar color and size. We will not do so, if at all available.

Your confidence through these years, now our fifty-third, has meant much to us. We shall make every effort to continue to merit it.

President.

sired, but no claims will be entertained at a later date. As to all items other than bulbs, claims must be made within five days after receipt or they cannot be recognized.

In the interest of time saving, we ask that you authorize us, when necessary, to substitute with the nearest similar size or variety.

Discounts for cash with order. Except on Cyclamen, Grass Seed, or special quotations. Flower seed orders up to \$25.00—5%. Over \$25.00—8%.

Vegetable Seeds—2%. On all other items 3% is allowed.

New accounts desiring credit, please give three trade references.

We mail all flower seeds post-free to any point in the United States, at prices listed in this catalogue.

Note: Purchaser pays transportation on grass and vegetable seeds.

**Disclaimer.** While we, S. S. Skidelsky & Co., Inc., exercise the greatest care to have all seeds pure and reliable, and all bulbs, plants and cuttings true to name, we do not give any warranty, express or implied, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they must be returned at once and the money will be refunded. Our liability in all instances, is limited to the purchase price of the seeds, bulbs, roots or plants.

HARDY LILIES  
DELIVERIES FROM LATE FALL ON

Plant bulbs immediately on arrival in a well drained soil, giving plenty of opportunity for root action. The container may then be set on a raised platform in a cool, sheltered place with perfect drainage. When flower buds appear, the bulb will then readily submit to forcing. It is safe to leave out of doors for flowering in June

MINIMUM ORDER 50 BULBS OF A VARIETY

LILUM REGALE  
(OREGON GROWN)

One of the finest and most beautiful of all Lilies, and certainly one of the easiest to grow, thriving in a great variety of soils. Slender stems, crowned with several large, funnel-shaped flowers variably wine-colored without, pure white on the face, clear yellow within the tube; anthers golden. Vigorous grower, attaining sometimes as high as twenty flowers or even more on a single stem. Stem rooting. Plant the bulb 8" deep in any good well-drained loam, with or without lime, preferably in a sunny position. Height 4-6 ft. July flowering.

### DAPHNE CNEORUM

A popular pot plant. Forms a magnificent solid pink globe of most fragrant blossoms. The individual flower resembles Bouvardia. Can be had in flower from St. Valentine's Day to the Spring holiday season, and blooms again in early Fall. The Fall flowering quality makes it extremely desirable for the garden after flowering in the home.

Field grown plants, trimmed, well-shaped and stored, suitable for forcing.

### GERBERA

#### Hersey's New Improved Duplex

The petal arrangement is duplex; that is: two or three layers of petals piled one above the other and giving added depth to the flowers. This duplexing has been accomplished without altering the delightful daisy disc in the center. Colors are white, yellow, orange, pink, and red, with many blendings of these colors to give hundreds of intermediate shades. Stems average 24 in. in length and the average size of bloom is 5 in. in diameter. It has been developed as cut-flower stock for high quality florist trade and should rapidly replace the old, common Transvaal Daisy because of its graceful beauty and its habit of growth, carrying ten to twenty flowers at the same time throughout a long blooming season.
